Frontend
HTML, CSS, JavaScript(ES6+)
React

Backend
Node.js
Express
MongoDB

Other Languages
Python, R

Collaboration
Slack, GitHub

OTHER INFORMATION

Languages
English (Native)
Korean (Native)

Strengths
Attention to detail
Eye for design
 Open-minded

Interests
Jump rope, Sudoku

PROJECTS

Todo List Web Application
- A minimalistic web application that keeps track of a user's todos.
- Users are able to add, edit, check-off, and remove todos as needed.
- Data is managed and stored in local storage.
- Built with React.

Weather Web Application
- A web application that displays relevant weather information based on the user's current location.
- Search weather information in other locations.
- Used OpenWeatherMap's weather API.
- Built with HTML, CSS, JS.

AWARDS

DoGood Hackathon – 2nd Place
do good hackers
Aug. 13 – 15 2021

- Devised a platform for team performance management.
- Cooperated with a Figma designer to convert design into a prototype as a front-end web developer.
